Soil science society of America. LIFE AND WORK OF C.F. MARBUT, SOIL SCIENTIST. Columbia, Missouri (1942?) 271p., illus. 120 M32

Memorials to great men take various forms. The general custom is to erect an imposing stone monument which generally leaves one impressed with the skill of the sculptor, but in itself reveals little about the true character of the person to whom it is dedicated, or the significance of his work.

The members of the Soil Science Society of America chose to prepare and publish a book to perpetuate the memory of Curtis Fletcher Marbut, one of its founders, whose researches in soil classification and geography laid the foundation for our modern concepts of soil. This to my way of thinking was a fortunate choice. Men and women who worked at one time or another with Dr. Marbut, or otherwise became intimately acquainted with him are the principal contributors to the memorial volume. In these contributions, the rise of a Missouri youth to international fame as a soil scientist is interestingly related. In reading the book, one cannot help but be impressed with Dr. Marbut's devotion to truth and freedom, which was coupled with a modest, kindly personality that inspired many.

I hope many persons will have an opportunity to read the "Life and Work of C.F. Marbut," especially young men and women. It demonstrates that those who wish to contribute to the betterment of mankind may well contemplate the satisfying rewards that diligent work in the field of science offers.--

PERIODICALS CIRCULATION

The routing schedules for periodicals are revised every six months, in order to add names of new employees in the Department, and to drop names of employees who have left the Department. The list of periodicals follows on pages 4-5. Eighteen new titles have been added since the December 15 list was issued.

Check all titles which you wish to see on regular routing until January 1, 1944, otherwise your name will be removed from the schedules.

The penalty form on page 6 may be used to mail your checked Newsletter to the Library.
